# Don't let a limited budget limit your market.

*Better-stocked shelves. More sales opportunities. Happier guests.*

**JNC program**

Fuller shelves. More choice.
No upfront inventory investment.

**Hotel-managed market**

Tight stocking budgets.
Gaps in selection. Missed sales.

## When guests can't find what they need, your hotel can lose both the sale and guest satisfaction.

## Stock for your guests—not your budget.

JNC funds your stock and supports your market with expert product selection, automatic replenishment and complimentary inventory control. Track sales and stock levels to support timely replenishment, helping reduce empty shelves, missed sales and guest frustration.
